ACTION REQUESTED BY THE SUPERINTENDENT: That the School Board approve the proposed redistricting of Cedar Grove Rd. and Cypress Lane from CFHS to MVHS beginning in the 2006-2007 school year.

KEY POINTS:

1. Cedar Grove Road is located on the south side of Rte. 17 past Clark Patton Road, prior to Pioneer Trail. The road is located within the future Westlake subdivision. There is one connecting street named Cypress Lane. Both streets are currently within the CFHS attendance zone. The subdivision of Westlake is currently the boundary line for the MVHS and CFHS attendance zones.
2. The only current students residing on either Cedar Grove Rd. or Cypress Lane are three students belonging to one family, residing on Cedar Grove Rd. The Hartwood School Board representative is requesting this redistricting on behalf of this family.
3. If Cedar Grove Road and Cypress Lane are redistricted to MVHS, the Westlake subdivision must also be redistricted because Cedar Grove Road. is the current entrance to the future subdivision. The potential high school student population of Westlake is estimated to be approximately 160 students at build out. Currently, the Westlake subdivision is not anticipated to begin building before 2010. Provided a 2010 high school is completed in the southern portion of the county before 2011, impacts to MVHS and CFHS from this redistricting should be negligible.

SCHOOL BOARD GOAL: #4 – Address the impact of continuing population growth by developing plans to address expanding staff, facilities, transportation, attendance zones and instruction.
